La Costa Heights Elementary School

We All Value Education

Fund Drive 2010

Did you know...

Current enrichment programs at LCH like art, music, and Playground Partners cost almost \$100,000/yr. and have typically been funded by multiple fundraisers?

Did you know...

Less than \$1 per day (\$250 per year per student) would fund ALL of our current programs AND many of those found to be of interest on the recent survey, like technology, PE and science?

Did you know...

Every other school in our district holds an annual giving campaign?

Imagine...

If we could raise enough money to help enhance our kids' education with new and improved enrichment programs.

Imagine...

Only ONE major fundraiser all year, with no profit-sharing costs. And back by popular demand, a fun jog-a-thon next spring.

Imagine...

The possibilities.

While the goal is to raise at least \$250 per student, we recognize and value the economic diversity of the LCH community and anticipate donations in varying amounts. Every gift is important. Please give what you can. Payment plans are available.

Catch the WAVE. Please give whatever YOU can to help all LCH kids catch it, too.
